Subject: Test of Techned TNAML Maintenance Free Fluorescent Luminaire

Dear Mr. Bons,

With this letter I confirm that we tested a Techned TNAML Zone 1 Maintenance Free Fluorescent Luminaire on our FPSO Cidade de Ilhabela at the Maua shipyard in Brazil.

The test was performed over a 6 month period from March until August 2014 during which the luminaire was in continuous operation for 24 hours per day.

In this period no problems were encountered and the luminaire operated satisfactorily.

Yours sincerely,

M.J. Ringlever

Senior Department Manager Electrical & Instrumentation
